To Whom It May Concern:

I am the owner/manager here at Mr. B's Paint & Body Shop Inc. We are a family-owned and operated business here in Albuquerque, NM for over 40 years. Our company has used Clark Inc. services for over 15 years. Robert Clark has provided us excellent service to our company, ranging from server set up and repair, to basic computer support. In the last few years, he has added his son Jonathan Clark to his staff. The combination of the two have provided my business with the most complete and comprehensive coverage of our technology needs. Their work is done with integrity and efficiency. They often advise, and educate our company about the latest, and most effective ways to keep our business technologies up to date and running smoothly. They have always done this promptly, and they keep the best interest of my business in mind at all times.

I would highly recommend their technology services, as they are always there when we need them. We have always been extremely satisfied with their honesty, quality, and timeliness of their services.

Truly yours,
